Ebikes - Mobility - Off-Road - & More

ABOUT AVVENIRE

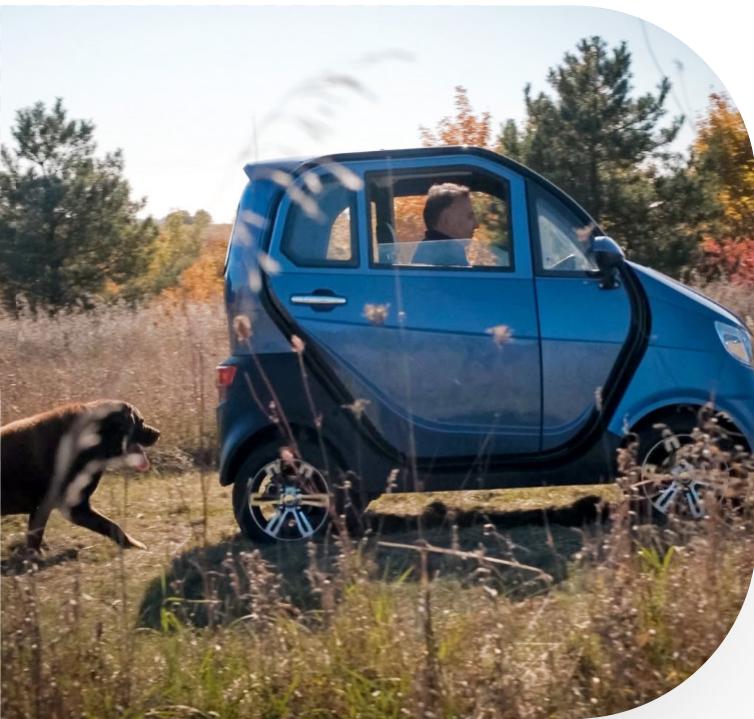

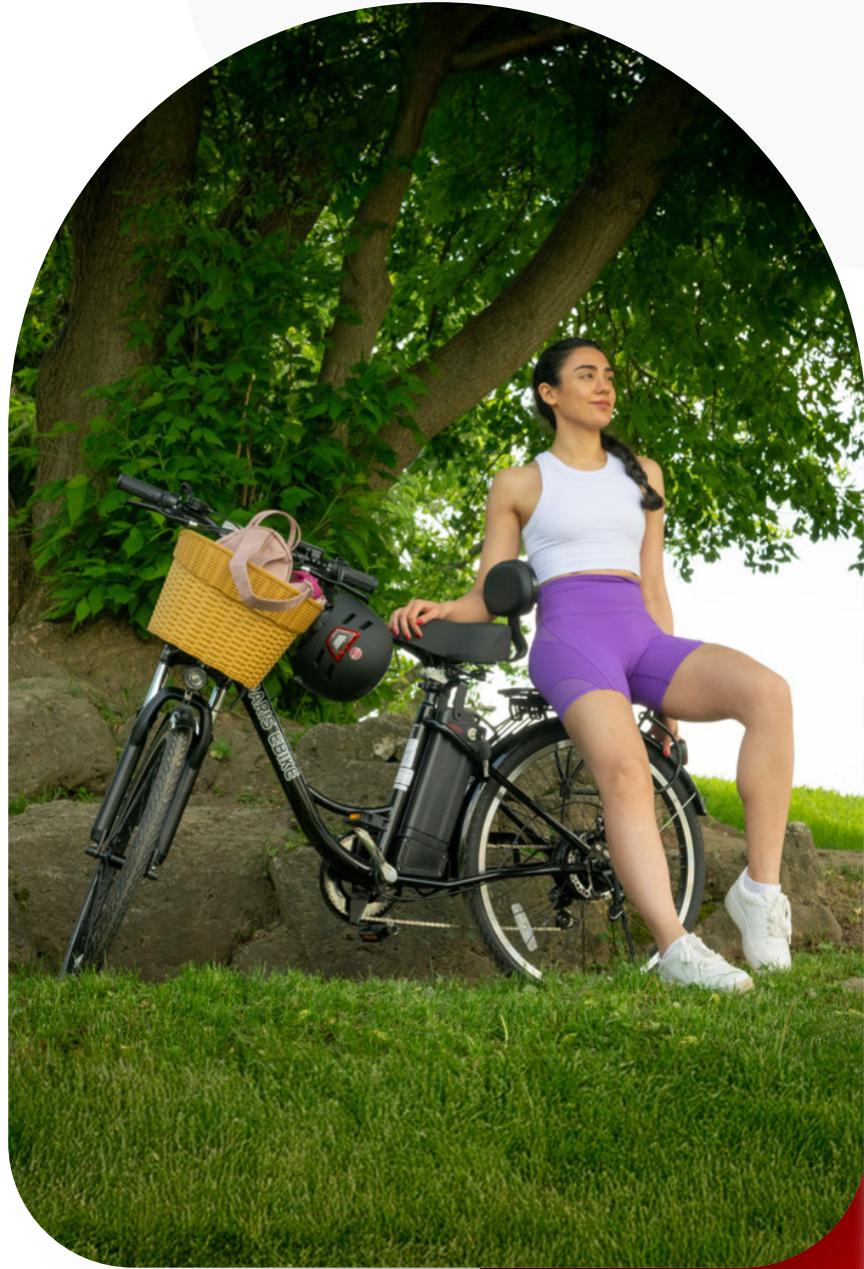

Avvenire offers Light Electric Vehicles (LEVs) that are compact, efficient, and eco-friendly transportation solutions. They represent the future of both urban and rural mobility, offering a sustainable alternative to traditional vehicles by reducing traffic congestion, lowering emissions, and providing flexible, cost-effective travel options.

WHY AVVENIRE?

Avvenire has been driving innovation in affordable, eco-friendly transportation. With a dealer-focused approach, we're committed to delivering exceptional value, superior service, and reliable solutions to help your business thrive.

MADE IN CANADA

At Avvenire, we take pride in designing and assembling innovative products like the Tectus Scope right here in Toronto, as well as the Leggera and Combat Ebike. Every product reflects our commitment to quality, reliability, and performance, crafted to meet the highest standards.

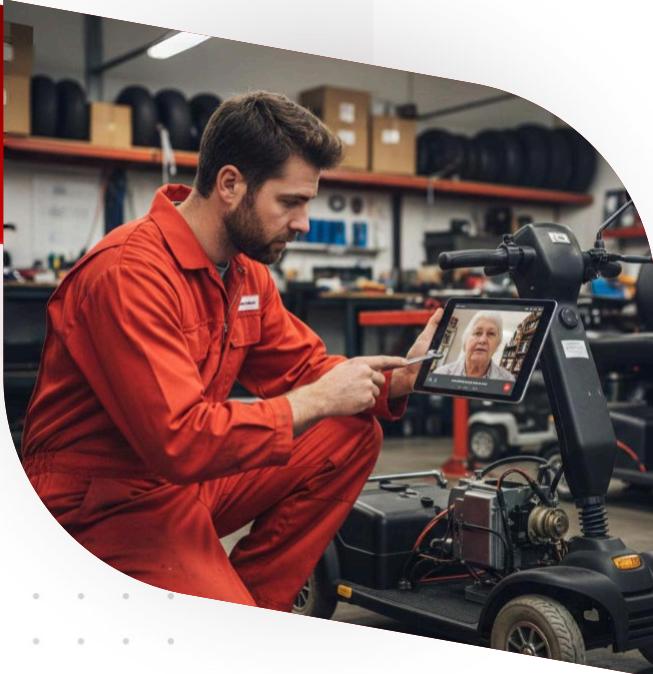

By producing locally, we:

- *Support Canadian jobs and industries.*
- *Meet rigorous safety and quality standards, including the National Safety Mark.*
- *Deliver faster turnaround times for customization and shipping.*

DEALER PERKS

Avvenire Rewards

Earn 1 point for every \$1 you spend with us. Collect points with every purchase and redeem them for exclusive discounts, special offers, and other rewards such as a trip to the Bahamas!

Technical Video Support

Schedule a real-time video tech call directly with one of our expert in-house mechanics. We provide fast, direct, and efficient guidance to troubleshoot any issue on the spot.

Additional Perks

- Cutting Edge Products
- Exclusive Dealers Leads
- 24/7 Ai Support
- Fast Communication via WhatsApp
- Marketing Material
- Crypto payments

Dealer-Credited Online Sales

Every sale, every dollar—credited to your dealership, even if it starts online. You receive full credit and profit from the sale—even if the lead was generated via our website.

FREEDOMCAB SPECIAL EDITION

UP TO 70KM IN RANGE

The FreedomCab SE is more than just a Mobility Scooter. It is a life-changing mobility partner designed for year-round use and safety in mind. Get the gift of freedom and travel with confidence and peace of mind.

TECTUS SCOPE

2026 VERSION

Built in Canada, this All-Wheel-Drive Mobility Scooter handles all kind of terrain up to 100Km range. The 2026 version features an updated modern display, and a new hazards button for emergencies. Offering ultimate comfort and adventure no matter the conditions.

Rove 4

NEW MOBILITY SCOOTER

This mobility scooter is equipped for comfort and convenience, featuring a protective canopy to shield you from the elements. It boasts a large windshield for clear visibility and added protection. For all your storage needs, there are baskets conveniently located on both the front and the rear of the scooter.

Urban Titan

NEW MOBILITY SCOOTER

The Urban Titan combines practical functionality and luxury aesthetics, allowing the user to travel with confidence and sophistication in a variety of environments, from paved driveways to groomed estate grounds.

Panther

OFF ROAD & ON ROAD

NEW E-BIKE

Forged in an uncompromising, all-black palette, this electric motorcycle is a dark masterpiece of retro design. Its lines harken back to the golden era of motorcycling—the sculpted seat, the classic headlamp, the robust profile—all meticulously crafted to evoke pure nostalgia.

Specs

On Road	
Top Speed 56Km/h	32Km/h with pedals
Battery 48v 30ah	
Range Up to 80Km	
Color Variations	●

Caddy

NEW GOLF CART

This is a robust and stylish electric golf cart, designed for a luxurious and comfortable ride around the course, accommodating more than just the driver and a passenger. The Caddy has a modern, slightly aggressive look compared to traditional golf carts.

Specs

Top Speed 45Km/h

Battery 48V 5kw

Range Up to 80Km

Color Variations

Foras Core

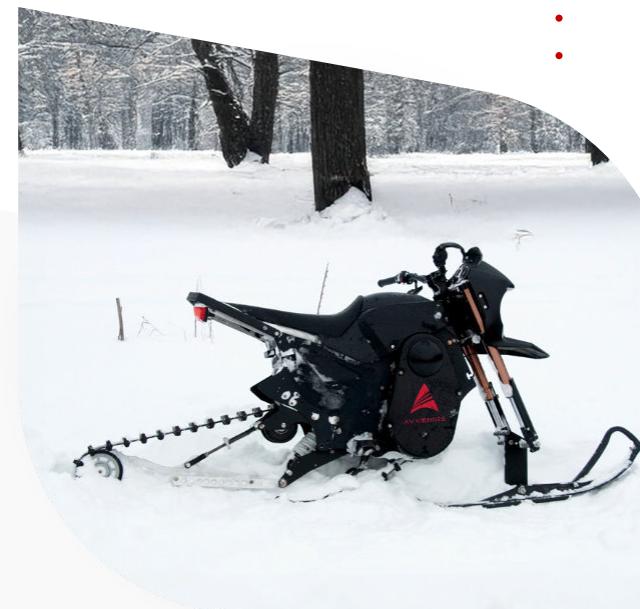

NEW E-BIKE

The Foras Core Electric Recumbent Bike is engineered for supreme comfort and therapeutic riding. Its ergonomic, full-back support seat and low-stress recumbent design virtually eliminate the back and joint pain common with traditional upright cycling. Combined with a powerful electric pedal-assist system, this bike allows riders with chronic back issues, sciatica, or joint pain to enjoy long, comfortable rides, easily tackle hills, and regain their cycling freedom without strain.

COMBAT EBIKE

The Combat Ebike is built for adventure. With a top speed of 60Km/h and a 70Km range, this All-Terrain-Vehicle comes with an innovative snowkit that transforms it into a snow e-bike in under an hour, making it ready for year-round fun.

Specs

Top Speed 60Km/h

Battery 72V, 3.6kWh - NMC 50AH

Range Up to 70Km

Color Variations ●

Atlas

Specs

Motor DAPU 36v 250w rear hub motor
